TWO VIRGINS

TWO VIRGINS

What is Two Virgins?

We started as a publisher in May 2015.

What do we want to challenge as a small publisher in this era?

One is to create something that is not consumed.

The world is full of things that can be exchanged,

We want to use books as an opportunity to nurture feelings and experiences that cannot be exchanged for things or money.

The second is to encounter as many "surprises" as possible.

If we have unlimited curiosity,

you will find that even familiar landscapes are full of surprises and joy, and we can always find "newness" even in traditional values.

We would like to deliver the results of our adventures to you in a book.

THE VISUAL

THE VISUAL, a series of works by the publisher Two Virgins.

Check the detailed lines. Look at it absentmindedly. Leave it on the table. Each person has his or her own way of enjoying the collection.

When you are tired, when you are lost, every time you open the page, you will get a new idea.

A practical collection for those who want to read it over and over again.

michikusa

What is Michikusa?

Two Virgins is a publishing company started in 2015.

We've been capturing (or transmitting) the cultures, landscapes, and diverse perspectives of our lives in the form of 'books'.

It would be our pleasure if our books could offer insights into your daily life.

The comic book 'Michikusa' continues to embody our philosophy.

A great man once said, "The Journey is reward. The true reward of the journey doesn't come from reaching the destination directly. It's found in the journey itself, in 'where you are now,' where you discover excitement, make new discoveries, and have meaningful encounters."

You don't need to hurry.

We would be delighted if you could take a moment to enjoy some "roadside grass" once in a while, instead of always looking ahead.

Let's sow the seeds together after you have finished all of it.

There were four countries in this land between the seas. People lived different lifestyles in each of the four countries. Recently, Kankan, a boy living in a remote village in the northern country of Lethite, is not satisfied with his life. "It seems strange to make something that no one in my town can buy" he said. One day, Kankan, who felt the people struggling to make a living and the sense of stagnation in the town, suddenly decided to go out into the outside world. Let's go on a journey for survival. A fantasy of "finding a place to live" by those who have no power!
